RICHMOND, CALIFORNIA, FRIDAY, NOVEMBER 17, 1922

No. 46

## State League of Women Hard After "High Cost"

### Housewives Ask For Reduced Ferry Rates

Berkeley, Nov. 17.—Members of the Berkeley State Housewives League are making a vigorous campaign for a reduction in commuters' ferry fares, as well as special half fare rates to school children, the same as given Alameda school children.

Members of the league declare that it is time the railroads or the state railroad commission are informed that the war has been over four years, and that wartime ferry rates are out of tune with the "high cost."

The league will also continue the milk war, and further state they will harass the profiteering combinations to a fare-you-well, or until they let up on exploiting the wage earner, who has taken his reduction in wages but has seen no reduction in rent nor the high cost of food and clothing.

### Vaccination Upheld By Supreme Court

Washington, November 17.—Compulsory vaccination regulations were upheld by the United States supreme court today.

It approved the action of Texas courts in dismissing a \$50,000 damage suit brought in the name of Rosalyn Zucht, San Antonio girl, who was expelled from school because her parents refused to allow her to be vaccinated.

### Plan Victory Dinner

Members of the East Bay Osteopathic Association will join osteopaths of the bay region at a dinner to be given Saturday evening at Hotel Stewart in San Francisco. The affair has been planned as a celebration of the passage of the osteopathic act.

### Subway Work Is Held Up

Owing to the recent heavy rains, work on the 16th street subway has been temporarily suspended. The torn up condition of this traffic way resembles some of the bombarded districts of the world war. The completion of the job looks like it would extend into the summer months of 1923.

### West Berkeley Lads Bombard Seagulls

Two fifteen-year-old boys were taken into custody Monday on a charge of shooting seagulls. Police Officer Wiltberger saw them blaze away at the gulls at the foot of Addison street. The youngsters said they had started out after ducks but could not find any, and decided they were going to "knock over" something before they returned home.—Gazette.

### Labor Journal Leaves Richmond

The Labor Journal, a magazine published in Richmond the past four years by A. B. Bradstein, at 5th and Barrett, pulled up stakes last week and departed for Oakland. Bradstein claims that Oakland is a more convenient place to operate his plant in the distribution of labor news.

Laura H. Ryan, Real Estate

### District Attorney Is Preparing For War On Lawbreakers

Martinez, Nov. 17.—In an interview with District Attorney A. B. Tinning yesterday, he said: "Abatement proceedings will be filed in the superior court of the county as soon as the Wright law becomes effective, which is December 1, 1922."

The enforcement of the prohibition act of the federal government will be in the hands of county and city officials and all cases will be tried in the county courts.

"As the National Prohibition Act provides penalties in excess of \$500, cases will be tried before juries in the superior court."

"Abatement suits similar to suits filed under the redlight abatement act will be brought against a number of notorious road houses and soft drink places in Contra Costa county."

### Flyers May Again Try Non-Stop Record

Washington, Nov. 17.—Lieutenant Kelly and MacReady may make a second attempt for a non-stop flight across the continent in an airplane shortly after the first of the year. The route will be from New York to San Diego.

Lieutenant Oakley Kelly said the first attempt failed because the cooling system was damaged by the strain in climbing over the mountains in California.

### Richardson May Put On Inaugural Ball

Sacramento, Nov. 17.—Gov. Elect Friend W. Richardson is being urged to give the old-time inaugural ball by the women of the state press association. Richardson says he may "weaken," but if he does the "inaugural jazz" won't cost the state of California a penny.

THE TERMINAL, Richmond's industrial newspaper.

### Fingerprints in School Burglary

Martinez, Nov. 17.—Excellent finger prints were found on the glass broken from the door of Prof. M. H. Rowell's office at the local high school when \$150 was stolen from his desk on Sunday night according to Deputy Sheriff J. F. Smiley who has been working on the case. Photographs of the prints have been taken and according to officers the evidence at hand will prove of great value in solving the mystery of the theft.

### Dogs Vaccinated in College Town

Berkeley, Nov. 17.—Dr. F. H. McNair, city veterinarian, announces that the ordinance compelling all dogs running at large to be vaccinated against rabies will be enforced after December 1. Already the doctor is besieged with dog owners who are having their pups vaccinated. Tags issued to all vaccinated dogs. The charge by the city is \$1.50 per dog weighing under 40 pounds, and \$3 for canines weighing over 40 pounds.

THE TERMINAL can print for you. Call up Richmond 132. Print shop at 208 MacDonald.

### Twenty-Third Street Boosters Are Jubilant

Twenty-third street is starting something.

Even the "Toonerville" car that azily awaits for passengers at this junction is improving its service and makes close connections night and day. It is different now. The city hall is no doubt permanently anchored.

The cause is this. The Mercantile Trust Company of California is about to start a branch bank out there. This company installed one in Albany recently, and Albany is taking on new life, and the sign is hanging out: "Business is good."

If 23d street wins a bank, then that district will develop rapidly. It was a long wait for the realty men.

### Motorists Invited to Climb Mt. Diablo

Nelson N. Scotchler, president of the Alameda county automobile trade association, has accepted the invitation on behalf of the members of that organization to join in the run to the top of Mount Diablo next Sunday, the 19th instant.

"My feeling is that every motorist owes it to himself as well as to the community to make this grand Mount Diablo trip as soon as convenient," President Scotchler said. "It is a comfortable drive, with an easy grade from the valley to the crest of the mountain. When the proposed Mount Diablo Park is completed it will be an attractive resort for automobile parties."

President Harry G. Williams, of the Mount Diablo state park council, who issued the invitation for the pilgrimage, has announced that in the event of stormy weather, or if there should be a heavy rain between now and Sunday, the run to the top of the mountain will be postponed.

No special hour is named for the start up the mountain, as it is deemed advisable for the individual drivers to be left free to choose their own time for the trip.

### Police Raid South Richmond Still

At 11 o'clock yesterday Richmond police raided a house at 2117 Ohio street and confiscated 17 barrels of wash and five gallons of booze which was ready for "market." A man named Radonovich was operating the plant. Radonovich was fined \$150 by Judge C. A. Odell and given a suspended sentence of three months.

### Hammer Slayer Found Guilty

Los Angeles, Nov. 16.—A verdict of murder in the second degree was returned by the jury today in the case of Mrs. Clara Phillips, charged with beating Mrs. Alberta Meadows to death with a hammer. The penalty is imprisonment for a term of ten years to life.

FRIENDSHIP'S ENDING

Doris was present while her mother and a caller were discussing the recent marriage of a young couple of their acquaintance. In the course of the discussion it was said that both had repeatedly asserted, "Only single blessedness for me." And now they had surprised their friends by getting married.

THE TERMINAL, Richmond's industrial newspaper.

### Valuable Eleven Acres of Land Reclaimed by City

Eleven acres of tideland at the west end of the inner harbor near the municipal tunnel is being filled in by the United Dredging Company, the silt being pumped from the inner channel.

Some 200,000 cubic yards of material will be deposited on this factory site. When completed this will be valuable property.

### Santa Fe Colonizing Plans Attracts Farmers

The Santa Fe Railway Company is making an active campaign in the middle west and east to bring settlers to California.

The publicity propaganda is of a high calibre collection of illustrated advertising that is convincing to the prospective home-seeker, and thousands will join the march of tourists who are already coming in order to escape the rigid climate back there.

### Reception at San Pablo

A reception for the new minister, Rev. H. A. Kern, is planned for this evening by the members of the San Pablo Baptist church, to be held at the church. There will be a program and other features and all friends as well as members are extended an invitation.

DREAFUL SOCIAL ERROR

Lydia went to her first real dinner party.

When she came home her eyes were shining and she was in the seventh heaven. Her mother was just as excited, so she got started on the tale and was "doin' fine" when her face fell and she said: "But, mother, a perfectly terrible thing happened!"

Her mother naturally wanted to know what it was, but Lydia insisted it was too terrible to tell. Finally the mother, imagining all sorts of dreadful things, insisted that she be told. So Lydia began: "Well, of course, you know Francis was brought up in France and Belgium, and they don't do things the same way there—but, mother, it is too terrible to tell!" "Well, you must tell it—if it is so terrible I ought to know it." "Well," said Lydia, "I don't like to tell; but Francis cut his lettuce with a knife!"

ASP OF HISTORIC ANCESTRY

A descendant of the asp which bit Cleopatra has just been found near Jalapa, Vera Cruz, Mexico, by a party of exploring naturalists. To confirm their statements, they have brought the reptile to Mexico City, where it is on display at the department of agriculture. The snake in question is distinguished by having two horns and, according to local authorities, these protuberances brand it beyond question as some relative of the historic asp of the Nile.

HIS IDEA

Little Billy—Say, ma, do the church folks pay the doctor with a song?

Ma—Why, goodness, no. What ever put that into your head?

Little Billy—Well, every Sunday when they get through having church they sing the "Doc's Ology," don't you know?

### Elks Charity Circus For Richmond's Needy

The Elks Charity Circus and Industrial Exposition closed Tuesday night, after a most successful run of eight days. Thousands of Contra Costans attended the exhibition, and the closing night eclipsed all previous records for gatherings in Richmond, the number passing through the main entrance being estimated at 15,000.

The giving away of two automobiles was the big attraction of the closing night. The following were the lucky ones:

Essex coach, drawn by H. C. Hanson of 669 Fourth street.

Overland touring car, John McCann, 1419 Bissell avenue.

S. C. Scragg of 662 19th street drew the \$50 gold prize.

### Sugar Co. Opposes Bridge at Crockett

San Francisco, Nov. 17.—Strong protests against the locating west of Crockett of any bridge across Carquinez straits featured the hearing yesterday of the Rodeo-Vallejo Ferry company's application before Colonel Deakney of the war department.

The protests were voiced by George M. Rolph, president of the California-Hawaiian Sugar company; Captain C. W. Saunders, of the Matson Navigation company, and F. A. Somers, president of the Grainger's Warehouse company.

Their protests were based on the allegations that a bridge west of Crockett would unduly interfere with navigation. They did not oppose a bridge at the Eckley site.

### Random Comment

Under the protective tariff this country has grown to be the richest and most prosperous on earth. In a false economy, thinking we will save a few pennies on our purchases, shall we abolish our tariff. That would "kill the goose that laid the golden egg."

Almost all the welfare measures which concern women and children both nationally and in the states, have come about through the Republican party: Suffrage, the Children's Bureau, the Women's Bureau, the Bureau of Education; Child Labor Legislation, the Maternity Infancy law, Independent Citizenship for Women, and a host of others of such nature. There are practically none of Democratic origin.

Shall Uncle Sam fling wide the pantry door, remove the lid from the cookie jar, and tell foreign labor to come in and help themselves to our markets by free trade; or shall he close the pantry door, put a tariff on foreign imports, save the home markets for Americans and the cookies for his own children?

Free trade fills our markets with foreign products. It closes mills, and makes farming unprofitable in America. Protective tariff shuts out foreign goods, saves the home market for American products, keeps American workers busy, and keeps the income coming.

Suppose tariff should increase prices a bit, or suppose free trade should reduce prices somewhat. The difference in price would be the price of civilization.

A reduced tariff means a reduced wage, reduced work, reduced standard of living, reduced nourishment, reduced education, reduced development, reduced citizens, a reduced country.

## Nominating Petitions Must Be Filed Today

### Supreme Court Hits County Deputies' Salaries

Martinez, Nov. 17.—At least fifteen deputies in various county offices at the court house here will lose increase in salaries granted them during the past four years, and several new deputies will lose all of their salary for the next two months at least, under a Supreme court decision reported here yesterday. District Attorney A. B. Tinning said he would advise the county auditor to hold up the warrants affected by the court decision.

The decision was the outgrowth of a suit in Los Angeles county affecting the office of the county assessor.

The court held that no increase in salary of deputies could be granted and no new deputies employed during the term of office of a county official.

### Westsider Moves Near Merced

B. McWhorter, pioneer west side grocer who closed out his business several weeks ago, has moved near Atwater where the family will reside. Mr. and Mrs. McWhorter and sons, Cardwell and Webster, and Mrs. McWhorter's mother, Mrs. Conroy, will reside on the ranch while Miss Nina Conroy will remain in San Francisco, where she is employed.

### Richmond's Building Activities Growing

City Building Inspector Wiers submits the following report for October, which contains 44 permits, with a total valuation of \$70,000.

Twenty permits were for miscellaneous buildings, totaling \$3,742; 9 old work, \$3175; 1 apartment; \$7000; 11 dwellings, \$45,860; 2 business buildings, \$40,000; 1 public building, \$4,500.

Personal

Mr. and Mrs. D. W. Calfee of Bluefield, W. Va., were week end guests of the Ross Calfees.

Charles Dalton, engineer out of Riverbank, has been transferred to the Richmond run and has taken apartments at 621 Chanslor.

### Fifteen Freeholders to Draft New City Charter

Candidates for freeholders must file their nominating petitions by 5 o'clock today, in order to be placed on the ballot for the freeholders election December 12.

The freeholders charter league, which circulated the petitions for candidates, have secured the following names of those who have consented to run:

Mrs. M. L. Anderson, Joseph L. Baker, C. R. Beatty, Hutt Brown, Walter Conway, Dr. W. M. Fraser, J. G. Gerlach, W. T. Helms, Geo. Lee, John P. Lucas, O. R. Ludwig, Isaac McCuffin, Mrs. Marie L. Ogborn, J. H. Plate, Charles H. Fulse, A. F. Purman, W. J. Richards, Jr., H. G. Stidham, H. H. Turley, W. A. Vickery, H. W. Wernse, Dr. W. E. Cunningham, G. D. Fredenburg, C. L. Abbott, V. A. Fenner, Dan Noziglia, W. J. Richards, Jr., J. P. Strom, T. N. Calfee, Archie Campbell, W. W. Scott, E. J. Garrard, W. L. Lane, R. E. Slattery, Mrs. Martha Chandler, Mrs. Anna Jarvis.

### To Regulate Weight Limit on Trucks

County Surveyor R. E. Arnold is in Sacramento with officers and special committees of the California Surveyors' Association to discuss plans for legislation to be laid before the next session of the state legislature, designed to curb the weight limit of trucks to preserve highways. Arnold is president of the association.

### Had No Opposition

Thomas M. Carlson, who will represent Contra Costa county in the coming session of the legislature, was elected without opposition. He is a Richmond attorney, a young man who is successful in his profession, and has a future before him that promises well.

He should be heard from at Sacramento. With the endorsement of the people of Contra Costa county, who have confidence in his ability to serve, Tom Carlson will do his level best for his friends who conferred high honors upon him.

## Christmas Handkerchief Opening

A great advance showing of domestic and imported handkerchiefs, including the most complete assortment of staples and novelties we have ever shown. Buy early while the stocks are new and complete.

Collected from the markets of France, Ireland, Scotland, England, Switzerland, Germany and Japan. During the holiday season, the position of the handkerchief and neckwear sections will be interchanged.

## PINK SNOW ON MOUNT RAINIER

Scientific Explanation of a Beautiful Mount Rainier National Park Phenomenon.

Some of the areas in Mount Rainier National park near Tacoma, Wash., are sometimes covered with a microscopic plant, *Protococcus nivialis*, growing in occasional patches beneath the surface of old snow, and which gradually emerges with a pink glow which sometimes covers acres. The result is a stretch of what appears to be pink snow. On the tongue its flavor suggests watermelon.

No doubt many other microscopic plants thrive in snow-fields and glaciers which remain invisible for lack of color. Insects also inhabit these glaciers. There are several *Thysanura* which suggest the sand-flies of our seashores, but are seldom noticed, because of their small size.

More noticeable are the *Mesenchytraeus*, a slender brown worm which attains the length of an inch. They may be seen in great numbers on the lower glaciers in the summer, but on warm days they retreat well under the surface.

"Courtesy," says the Fremont Tribune, "is the quality that keeps a woman smiling when a departing guest stands at the open screen door and lets the flies in."

"A compromise," says the Harrisburg Patriot, "is when a man agrees to let his wife have what she wants if she will shut up."—Boston Evening Transcript.

### THE REWARD OF INDUSTRY

The Professor—Let us take the example of the busy ant. He is busy all the time. He works all day and every day. Then what happens? The Bright One—He gets stepped on.

## NEW ENGLAND ANIMAL SHOWS

"Cattamount," "Sapient Dog" and "Pig of Knowledge" Delighted Our Ancestors.

Shows were forbidden in early New England. But in the Eighteenth century animal exhibitions began to be advertised. The Boston Gazette of April 20, 1741, contained this announcement:

"To be seen at the Greyhound Tavern in Roxbury a wild creature which was caught in the woods about 80 miles to the Westward of this place called a Cattamount. It has a tail like a Lyon, its legs are like Bears, its Claws like an Eagle, its Eyes like a Tiger. He is exceedingly ravenous and devours all sort of Creatures that he can come near."

"Whoever wishes to see this creature may come to the place aforesaid paying one shilling each shall be welcome for their money."

Salem had the pleasure of seeing a "Sapient Dog" who "can light lamps, spell, read print or writing, tell the time of day or day of the month. He can distinguish Colours, is a good arithmetician, can discharge a loaded cannon, tell a hidden card in a pack, and jump through a hoop."

A Mr. Pinchbeck exhibited in the same town a "Pig of Knowledge," supposedly able to do all the same things.

### THAT MUCH SETTLED

"Uncle, what did that mule try to do to you?"

"I don't know, boss," said the old negro, who was feeling himself all over to find out where he was hurt, "but de minute dat mule h'isted his heels I knew he warn't tryin' to do me no favor."—Birmingham Age-Herald.

It was in THE TERMINAL.

FRIDAY, NOVEMBER 17, 1922.

### Class Legislation

The growth of governmental regulation of strictly private affairs is a danger which every year more seriously threatens us. A logging crew is a good one only when each man, from cook to the boss of the camp, is good in his own line and eager to do his part to the best of his ability and in the doing to exercise an intelligent initiative.

The fallers must determine where the tree will safely fall. If one chances to fall wrongly the sawyer must know without being told in what lengths to cut it in order that the logs may be most advantageously got into the road, and the rigging man must get it into the road by the two shortest methods possible.

No member of the crew should need to be told step by step what to do. If he does not grasp unerringly his part, in the performance, then the crew is not up to standard.

The logging camp is only an example of what spells success in every organization from the candy shop to the Ford system. Good citizens must be encouraged to develop initiative. The governmental practice of attempting to take each one by the seat of the trousers and steer him around results in a multiplicity of running motions with little forward progress.

Some years ago the public set in to regulate the railroads, particularly as to freight rates. That has logically led to fixing the laborer's wages.

The railroad board has gravely determined to its own satisfaction how much will support a laborer. To be consistent, it should determine what will support ALL the officials.

The word "necessity" means necessity. The selected foods, the heavy clothing, the warm rooms, which are necessities to the physical and mental welfare of the infirm, are not at all necessities to the rugged person, be he wealthy or poor.

Some board or other has decided that certain laboring women should be able to exist on ascertained sums per year.

Based on such figures, suggestions are made for adjusting the wages of a particular class of our people.

Just wait, however, until the various tribunals called boards begin to investigate the "necessities" of the dentists who charge \$25 or more an hour, the royal incomes which are needed to supply the necessities of film actors, railroad officials, baseball and football magnitudes, and generally the multitudes who receive salaries—not wages!

This state of affairs cannot be looked for except under Bolshevist rules and practices. All class legislation is paving the way—just as a mining dredge steadily digs out its own channel.

### WHITE-HAIR CRAZE

The white-hair craze seems to have started in Paris and it is spreading to England. Most of the hair comes from the south of France, many villages are holding periodic "hair markets." The best qualities often sell for \$150 an ounce.

### AIRPLANE SURVEYS CHEAPLY

Timber lands in Canada are being mapped with the help of airplanes at a less cost than ground work of similar accuracy.

## MOST PRIMITIVE OF BIRDS

The Hoatzin Has Many Characteristics Linking It With the Remote Past.

In certain restricted portions of northern South America lives a bird known as the hoatzin. It is a fairly large, mottled black and brown in color, and with a conspicuous crest of long, narrow feathers on the head.

In British Guiana the hoatzin is confined to short stretches of scrubby growth along the banks of sluggish savanna streams. This limitation of range is due to the fact that it is a very weak flyer and cannot sustain itself in the air long enough to bridge long gaps between patches of scrub. This failing would long ago have resulted in its extermination if it had not been held in bad repute as food by the natives, the alleged unpleasant odor of its flesh causing it to be tabooed. In Guiana it lives in thorny trees, which give it protection against other enemies than man.

Of all known birds of the world the hoatzin is by far the most interesting to the evolutionist, observes the Detroit News. Closely confined in a favorable environment, the years have touched the hoatzin but lightly. It remains the most primitive of living birds, and retains many characters that link it with the past.

### SHE KNEW HIM

"I was sorry to hear about your old man, Mrs. Miggs. Still, I s'pose by now 'e'll be bangin' 'is arp with the angels!"

"My 'Arry! Not on yer life! 'E's more likely bangin' the angels with 'is arp."—London Mail.

### NOTICE TO CREDITORS.

In the Southern Division of the United States District Court for the Northern District of California, First Division. No. 12744 in Bankruptcy.

In the matter of R. L. Wolfe, Bankrupt. To the creditors of R. L. Wolfe, Bankrupt:

Notice is hereby given that on the 26th day of Sept., 1922, the said R. L. Wolfe was duly adjudicated a bankrupt, and the first meeting of his creditors will be held at Room 705, Eastern Building, in the City of Oakland, State of California, on the 24th day of November, 1922, at 2 o'clock p. m., for the purpose of proving their claims against the said bankrupt, and examining said bankrupt, and at the same time and place all creditors whose claims have been duly proved and allowed shall appoint one or three trustees, and said trustee or trustees shall be authorized to sell the property of said estate at the hearing of the first meeting of creditors.

Claims must be in the form required by the Bankruptcy Act and sworn to. Dated Oakland, California, Nov. 8th, 1922.

WM. J. HAYES, Referee in Bankruptcy in and for the Counties of Alameda and Contra Costa, State of California.  
C. D. Horner, Atty for Petitioner.

### ANNUAL MEETING

Notice is hereby given that the ANNUAL MEETING of the stockholders of the HIGHGATE PARK LAND COMPANY will be held at the office of the company in the SUNSET VIEW CHAMBER at El Cerrito postoffice, Contra Costa County, State of California, on Friday, the 24th day of November, 1922, at one (1) o'clock P. M. of said day, for the purpose of electing a Board of Directors of said corporation and transacting such other business as may come before the meeting.

By order of the Board of Directors, HIGHGATE PARK LAND COMPANY, WALTER N. BAXTER, Secretary Highgate Park Land Company, El Cerrito postoffice, Contra Costa County, State of California. nov 17-24

### NOTICE

THE FIRST NATIONAL BANK OF RICHMOND located at Richmond, in the State of California, is closing its affairs. All note holders and other creditors of the association are therefore hereby notified to present the notes and other claims for payment.

CHARLES J. CRARY, President. Dated Oct. 7, 1922.

Note—The business and assets of First National Bank of Richmond have been acquired by Mercantile Trust Company which will conduct an office at the place of business formerly occupied by the First National Bank of Richmond.

**California Gas Appliance Week — November 13 to 18**

THROUGHOUT CALIFORNIA from November 13 to 18, Gas Appliance Week is to be conducted for the purpose of better educating the housewife in the efficient use of gas and gas equipment. The combined efforts of gas companies, gas appliance manufacturers and dealers, plumbers, hardware dealers, furniture dealers, and newspapers are behind this movement to make it one of real value to every user of gas-burning appliances.

Ask about the use of gas and gas appliances. Watch your local newspapers for announcements of special displays and demonstrations. They will be for your benefit, and worth while information will be given. Ask your dealer in gas appliances or at the local P G and E office for information on any point you may not understand.

Take advantage of all that Gas Appliance Week offers.
